

LEONARDO CARVALHO

Taubaté, SP, Brazil | www.zfxsoftware.com
+55 (12) 98284-7001 | lionard.oakwood@gmail.com

Computer Engineer with a strong track record in leading and scaling technology businesses, including the successful direction of ZFX Software Studios, a leading software house in Brazil's Vale do Paraíba region. Specialized in strategic software engineering, cloud infrastructure, and high-impact technical decision-making. Recognized for aligning engineering excellence with business growth, delivering reliable and competitive technology solutions.

PROFESSIONAL EXPERIENCE

PROJECT DIRECTOR

ZFX Software Studios | Taubaté, SP, Brazil

2023 – 2026

Led the strategic and technical direction of ZFX Software Studios, scaling operations, engineering standards, and client delivery across multiple industries.

Oversaw architecture decisions, cloud infrastructure, and team execution to deliver secure, high-availability software solutions.

EDUCATION COORDINATOR

BNI Referência Taubaté |

2025 - 2026

Coordinated educational initiatives and professional development programs for members, focusing on business growth and knowledge sharing. Designed and organized training sessions to improve engagement, leadership skills, and collaborative performance within the chapter.

HARDWARE & ROBOTICS TEACHER

Microcamp Tecnologia | Taubaté, SP, Brazil

2021 - 2023

Taught hardware, electronics, and robotics fundamentals, guiding students through hands-on projects and practical problem-solving. Developed technical curricula that connected theoretical concepts with real-world applications and experimentation.

EDUCATION

COMPUTER ENGINEER BACHAREL

Universidade Anhembi Morumbi

JUNE 2021 - JUNE 2026

- Emphasis on systems engineering, software architecture, and applied computing
- Academic projects integrating engineering, business, and analytical thinking
- Graduated with a 9.8 GPA, reflecting consistent academic excellence

SKILLS

- Systems Architecture & Engineering
- Cloud Infrastructure & Hosting Management
- Technical Leadership & Project Direction
- Software Quality, Security & Scalability
- Business-Oriented Engineering Decisions
- Process Optimization & Automation
- Client-Facing Technical Communication
- Team Coordination & Mentorship
